

All in Canada Must Have jobs Says Bengough

Continued From Page One

Britain is bound to encourage a greater participation by the British workers in political activities," Mr. Mosher said.

He said the growing interest of organized labor in political matters was not to be interpreted as a desire of labor to take over the government, but as a desire to have a say in the government, and to have the government responsible to the people.

COMPARATIVELY NEW
"Labor as an institution is comparatively new. It is rapidly developing a sense of obligation towards the community, and this will increase as labor is recognized as a factor, not only in production, but in the political and social structure of the nation."

Mr. Bengough said that returned men and women don't want a job by bumping another off. They want and are entitled to a job of their own, he said, and added, "If the government fails in these things it is safe to prophesy that this will be their last opportunity."

TEXT OF MESSAGE
Text of Mr. Bengough's message follows:

"The twelve months that have elapsed since last Labor Day have brought great changes. More history has been made in the past year than generally took place in the many years before. Fascism has ceased to be a threatening menace and Hitler and his henchmen are already unpleasant memories and we have celebrated the defeat of Japan."

The stupendous efforts that were made by the people of the Allied nations to defeat the Axis powers were a revelation of what can be done by human beings applying their scientific knowledge and skill to a common cause. Undoubtedly we are indebted to be thankful for. Those of us who are alive and uninjured are a tremendous debt to those who have died, fought and worked on our side in this fight."

"If we had not the ability to build a bigger and better war machine, with another fellow, we would have been a different one. We came close to losing it. The struggle was a long one. It is all that the people who produced all the millions of tons of foodstuffs and foodstuffs necessary to win the war were, according to the government, a financial crisis, absolutely broke, about twenty minutes before this war started."

THOUSANDS JOBLESS
"Canada which produced so much had hundreds of thousands unemployed and hungry. We were destroyed food because people needed it could not buy it. The fact is we had everything we needed to make life worth living but the only way to get food for the kids was to buy it and we had no money."

"During the last few years Canada has sent millions of dollars of food overseas. We gave a lot of it away and rightly so. Our allies needed it. If the war has taught us anything it has proved that we could have done some giving to our own unemployed citizens during the depression and saved a lot of misery."

"The Goerings, Laval and Quinlans are being brought to trial for the human suffering and misery brought about by their actions. The architects of past depressions, while not in spectacular in their operations, also of great aid misery and have got away with free. They also have a lot to be thankful for and let's hope have also learned enough not to try it again."

NOT REVOLUTIONISTS
"The mass of the people of Canada are not revolutionists. They have the great conviction that they are privileged to be citizens of this country. They value their democratic freedom. All they want is an opportunity to do useful work and have social security."

"Canada is a rich country. Properly managed, Canada can provide full employment for all its citizens. The population is growing and no artificial bottlenecks of finance must be allowed to prevent the present and future development of this great country."

"Our first consideration is the returning personnel of the armed services. They need work. The job is not another fellow's job, as demonstrated by some short sighted individuals now clamoring for the elimination of seniority rights with a view to displacing the man who used it."

"The returned men and women don't want to get a job by bumping another off a job. They want to be entitled to a job of their own. The solution is jobs for all and working short of that will be of use either to those who have fought or those who have worked."

BETTER RESPONSIBILITIES
"In Canada our government has been returned to power. It is quite safe to say they have great responsibilities. They have promises to keep. The people of Canada want democracy that will operate in the interests of the mass of the people. They want full employment and social security. If the government fails in these things now it is safe to prophesy that this will be their last opportunity."

"In Great Britain the people have changed their government. The results of the recent general elections there are very significant."

All of Canada Is Emergency Housing Area

Continued From Page One

Brig. Colin Campbell, director-general of real estate for the construction department, who will handle all requests from municipalities for the use of government buildings for conversion into temporary accommodations.

2. Actively operate to see that all vacant houses in their regions are put to use.

The announcement said that an administrator or officer, upon learning of a vacant house, will inquire as to why it is held vacant and endeavor to induce the landlord to rent it or sell it for immediate occupation."

If the landlord refuses without valid reason, he will be given an order directing him to either sell or rent the house to a purchaser who will occupy it immediately, or to rent it within a limited period, if the building is not occupied within the specified period, it will be taken over by the board for rental.

MAXIMUM ASSISTANCE
To ensure maximum assistance in providing necessary temporary shelter, the officers and administrators will maintain close touch with municipal authorities, labor unions, the Canadian Legion and other services organizations.

Board officials said the end of the war in Europe and Japan has made the expansion necessary.

Donald Gordon, board chairman, said housing now is a national problem and it is doubtful whether there is any city in Canada where family accommodation can be easily found.

He added: "The permit system, which was successful in preventing the influx of non-essential families to a congested area, obviously could not be extended to all cities in Canada and will, therefore, be discontinued."

The board statement said the reorganization of the general government to meet the housing problem throughout the country. The War-time Housing Ltd., the government was negotiating for and building several thousand low rental houses for veterans and was engaged in an

Canada's 9th Victory Loan Opens Oct. 22

Continued From Page One

minimum goal of \$1,250,000,000 in the eighth loan, Canada's victory loan, which ended last May to which Canadians subscribed a record of \$1,568,937,330.

Mr. Heley said because of war and reductions in Canada outlays it was possible for the ninth loan to meet the Dominion's borrowing needs for a 12-month period. Up to now each victory loan aimed to cover needs of only six months, so that the ninth loan would really be two in one.

Despite the end of hostilities, Canada's borrowing requirements continued to reflect the costs of war and its aftermath, he said. The maintenance and pay of Canada's armed forces away from demobilization, the costs involved in their return to civil life, the need for medical care for wounded and the support of forces remaining abroad were recognized as major items reflected in the large goal which had been set for the ninth loan.

The United Nations, including Canada, were making gifts of essential supplies to the peoples of war-torn countries and the Dominion was leading many in countries in war areas to help them buy Canadian supplies. Also there were out-

10 Die in Crash
SAN FRANCISCO, Aug. 31.—(AP)—A Superfortress crashed in a raging storm in hills near Tequesta Tuesday afternoon, killing 10 of the 11 Americans aboard, Domei agency reported yesterday.

Important Coats
This year is the first in many with such a selection of originally designed coats. And this month during our pre-season showing of the fashions that will set the style trend for seasons to come, is the time to buy, while our collection is widest.

These tasks and these needs, are reasons why Canada's borrowing requirements for the next year will remain at a high level even though direct war costs have declined with victory in Europe and in the Pacific," Mr. Heley said.

They are reasons why Canadians are being asked to continue their present savings program for another year.

"Plans to win the peace—plans for high employment and prosperity in the days to come—are now being laid. Continued saving over the next year will help these plans succeed."

War production has come to an end. Production for civilian use is on the way up. But the supply of new things to buy at current prices is still very much less than the amount of spendable money in the hands of Canadians.

PRESSURE ON PRICES
"As long as this condition remains, there will be upward pressure on prices, pressure which could lead to inflation, then to unemployment, misery and hardship."

"Spending increases this pressure. Saving reduces it. So continued saving, by the purchase of Victory Loan bonds, helps to keep the costs of living under control and to maintain the buying power of our money. By helping to maintain stability, it will help us to win the peace."

No Hand Shakes

Ceremony "Cold" as Jap Naval Base Surrendered

SINGING STAR.—Jane Harker sees her interest in show business to her mother, who was one of vaudeville's Virginia Sutters. A California girl, Jane was a secretary in a talent agency before signing for films.

By HAL BOYLE

YOKOSUKA NAVAL BASE, TOKYO BAY, Aug. 31.—(AP)—U.S. Marines stepped ashore on Japan today to receive formally surrendered the Japanese naval base of her vanished fleet in a brief ceremony.

The surrender was held on a pier beside the cruiser Kato under the shadow of a giant skeleton port crane, beneath a blazing sun. It was hardly a ceremony to bolster the ego of face-saving, penguin-diving Japanese naval officials as they yielded control of the Japanese navy's administrative centre and the Empire's largest naval repair and construction yards.

Vice Admiral Michiharu Tozuka, commander of the naval base and of Japan's 1st naval district, stood silent, nervous and annoyed while American marines formed an honor guard. Impassively waiting at his side were his chief of staff, Rear Admiral Masaharu Kawahara, and a middle-aged Japanese civilian who spoke excellent English.

After the Japanese party had waited 10 minutes American naval officers came down the gangplank of the San Diego. Leading them were Rear Admiral Robert Carney, chief of staff to Admiral William F. Halsey, and Rear Admiral Oscar C. Badger, naval task group commander.

"They paused and the Japanese walked 30 feet to meet them. All four admirals saluted. They didn't shake hands."

Urges Full Probe Of "Destruction"

CALGARY, Aug. 31.—(CP)—I am still convinced that there should be a complete investigation, open to the public and the press and with all witnesses granted immunity, into the reports that valuable radio equipment has been destroyed at No. 2 Technical Signals unit at Penhold, declared F. D. Shaw, M.P. for Red Deer, yesterday.

He stated that Tuesday evening he was "unofficially informed a halt had been called to the destruction of the equipment." He also "understood that Air Commodore S. G. Tackaberry of the RCAF special services would not be making the official investigation" which he had asked for.

In reply to his telegram to Hon. C. D. Howe, anti-Saturday evening, requesting an investigation, Mr. Shaw received a reply Tuesday which read: "As no report of serious involving radio equipment at Penhold has been made, am referring telegram to department of national defence for action."

Mr. Shaw said he expected to meet Air Commodore Tackaberry while he was in Alberta.

Inter-Provincial Civil Employees' Assn. Is Planned

WINNIPEG, Aug. 31.—(CP)—Employees of five provinces will meet here Sept. 19-20 to form an inter-provincial civil service association to exchange views on common problems, it was learned here yesterday.

Provinces to be represented are Ontario, Manitoba, Saskatchewan, Alberta and British Columbia. Each provincial association will have two delegates at the meeting. The tentative agenda suggested by the Alberta association includes items such as abolition of political patronage, systematic pay increases and promotions, sick leave and protection for dependents, and regular vacations and sick leave with pay for all provincial employees.

Vancouver-Winnipeg Flight Record Is Set

WINNIPEG, Aug. 31.—(CP)—L. for Lovell, a Lancaster bomber of the Pathfinder squadron, has set a record from Vancouver to Winnipeg, flying the distance of 1,360 miles in four hours and 47 minutes. Previous record was set May 13, 1938, when a TCA Lockheed-14 flew the distance in five hours and 15 minutes. The big plane was piloted by F. H. L. Bud Larson, DFC, of Regina, made the flight Wednesday.

It was announced here yesterday must be enclosed. Write on one side of paper only. Letters must not exceed 150 words. Address: McCoy Health Service, The McCoy Building, 1151 West 6th Street, Los Angeles, Calif.

All questions regarding health and diet will be answered. Large stamped, self-addressed envelope

Industrial Alcohol Restrictions Lifted

OTTAWA, Aug. 31.—(CP)—All chemicals control restrictions on the use and distribution of industrial alcohol have been removed. Supply Minister Howe announced last night. Issued in October, 1942, the chemicals control order directed distillery facilities to the production of industrial alcohol, needed in large quantities for a variety of purposes, including the early production of synthetic rubber in Canada and the continued production of such rubber in the United States plants.

New Rules Coming

Legendary Canadian Fliers Now Face Being Grounded

TORONTO, Aug. 31.—(CP)—Legendary figures in Canadian aviation, the men who "opened" the north country and through the war years flocked to the RCAF and the Ferry Command, now face the thing they fear most—being grounded, "washed out."

New regulations are reported on the way which will affect all

Canadian pilots. The medical standard is to be stricter than ever before, with more electrocardiograms, which record heart history, and extra-special eye tests.

Many of Canada's best-known commercial and bush pilots are veterans of the First Great War, and now are between 47 and 52 years old. Some of them may

be grounded by the new policy, "It isn't because of new medical standards but because we're all getting older every day," said Stewart Graham, assistant director of civil aviation for the department of transport. He said his department had to make certain allowances for "the fellows up north who for years carried the burden of Canada's aviation progress." Conditions differed in bush flying and in operations around an air terminal.

Some veteran pilots, it was reported, are planning a protest against the new rules. They point to "Pop" Cleveland, oldest transport pilot in the United States, who is 62, and to Jimmie

Find Conditions Hong Kong Island Are Fairly Good

MACAO, South China, Aug. 31.—(Reuter)—Conditions in Hong Kong are "fairly good," E. P. Gimson, a British government representative newly released from internment, reported over the Hong Kong radio.

Speaking as the chief representative of the British government, Doolittle, who has flown in Canada with many of them. "Doolittle was first off the carrier Hornet en route to Tokyo at 53," they claim. "He's still flying."

now resident in Hong Kong, he announced that he had established a British administrative office in the City of Victoria, capital of Hong Kong island, with the concurrence of Chinese authorities. He asked for a reassuring message from the British government.

Insure Nurses

OTTAWA, Aug. 31.—(CP)—Provisional nurses are being brought under the government's unemployment insurance plan Sept. 3. Extension of unemployment insurance to nurses does not cover those engaged in private duty or employed in a hospital or charitable institution not carried on for gain.

McCoy Health Service

The value of a strong spine can be over-estimated. The person who develops the spine, and also the powerful muscles of the back will benefit to a marked degree.

The spine or backbone is considered by some anatomists to be the most important structural part of the whole body. To the bones of the spine are attached the skull, the ribs, the pelvis, and indirectly the bones of the arms and legs. The spine also forms a protective canal for the delicate spinal cord.

From the brief description you understand that the spine bears an important relationship to health. The powerful muscles attached to the spine must be strong and evenly balanced.

The old expression, "stiff as a backbone," implies it is a crude way the value of a strong spinal column. People with strong spines are often independent in spirit, self-reliant and full of courage. On the other hand, when the spine is weak it is increasingly difficult to maintain their qualities.

Sometimes one of the small bones making up the spine will lose its proper relationship with the neighboring vertebrae. This in turn may induce pressure on the delicate nerves which issue from the spine and eventually may impair the health. This fact is clearly understood by the graduates of these schools of manipulative therapy who attain success through adjustment treatment.

It is also true that backache may be due in some instances to weakness of the muscles of the back, by reason of the fact that these muscles are weak and flabby through lack of exercise. In these cases, it is now an accepted idea that the best way to relieve the backache is to give the patient the necessary corrective exercises to strengthen the muscles.

The habits of living engendered by modern life often favors general body weakness, in which process the back shares, and one of the necessities of today is to develop the back muscles as they support the spine in a normal manner. The best way to bring about this development is by taking graduated exercises. When the right exercises are taken day after day, you will slowly strengthen the back muscles with a corresponding gain in health, energy and endurance.

The exercises which I have found to be the best are outlined in my article called "How Spinal Weakness Affects Your Health." The article will be sent to you when you request it by writing to the McCoy Health Service in care of this newspaper, enclosing a large, self-addressed envelope and 30c.

All questions regarding health and diet will be answered. Large stamped, self-addressed envelope

YOU'RE IN THE ARMY NOW—I wonder how long this rehabilitation period lasts, does it?

TO THE CANADIAN PUBLIC
WE SAY

Thank You

DURING the war, so happily ended, the Canadian National Railways, as Canada's greatest transportation system, had a gigantic task to do.

Our ability to fulfill this duty to the credit and satisfaction of the Nation is due not only to the skill, devotion and zeal of those who are our workers, but in large measure to the Canadian Public who, by their generous responses to appeals for help and their uncomplicated acceptances of restrictions and controls, lightened our burden.

We wish to thank the Canadian Public sincerely for their help—the millions of passengers who used our trains and steamships, the shippers of freight and express, the guests in our hotels, the patrons of our telegraph and other services and the unnumbered citizens who refrained from travelling needlessly as their contribution to the common cause.

The surrender of the last enemy has ended the fighting but it has not ended the war job of the Canadian National Railways. The men and women in the Services have to be brought home without delay and for that purpose we shall continue to employ all our available passenger equipment. Millions of tons of materials must be transported for industrial reconversion.

So in saying "Thank You" we express the hope that in carrying out these and other extensions of our war job, we may continue to enjoy the understanding of the Canadian Public.

Shore Takes Over
New Haven Club
In American Loop

NEW HAVEN, Conn., Aug. 31.—(AP)—The New Haven arena announced Thursday that Eddie Shore, 40-year-old firebrand of hockey and one of the game's most astute strategists, has taken over New Haven Eagles in the American Hockey League.

Professional hockey will be returning to New Haven after three-year absence.

The tentative league schedule calls for New Haven to open against Providence Oct. 17 at Providence and to play its first home game here Oct. 18 against Providence.

Shore is bringing to New Haven a team which, he says, he has been "building up for three years. New Haven, which never has boasted a championship team, may get one this season if Shore's hopes are achieved. With one or possibly two exceptions all of the players he has in mind are seasoned professionals and 80 per cent. will be men who have seen military service.

Winnipeg Ties
Fastball Series

REGINA, Aug. 31.—(CP)—Winnipeg Globetrotters tied last night's Saskatoon Olympians pitcher Joe Thompson for eighth bats and a 4-1 victory to square their best-of-five western Canada senior men's baseball semifinal at one game apiece, Olympic defeated the Manitoba champions in the opening game last night 3-1. The winner of the series will meet Edmonton Clippers, Alberta champions, in the final.

The Saskatoon team had a lean night at the plate, their best being a lone blow by Bob Sawayhille which dribbled down the third base line.

The victors will be captained by P. W. Higgs who is no stranger to Edmonton, and will include T. L. Wright who has captained the provincial team, and also Teddy Brown, one of Vancouver's outstanding batsmen. Two of the most promising exponents, Ivan Clark and Howard Bailey are also included in the lineup, and it will be a well-balanced side. The Edmonton cricketers are short of practice, but are prepared to put up a fight for the honors, and a good game is in prospect for the holiday, the first inter-city game for some years.

The following will represent Edmonton: R. D. Thomson, J. V. Edwards, W. Dwyer, E. C. Parker, Jones, A. Jones, E. Diggins, M. Grant, W. Stanley, R. Turnbull, Reeves, A. J. Neale, D. Berry. Anybody unable to play please phone Doug Thomson as soon as possible. Owing to the weather conditions, practice was called off for Thursday but will all the above cricketers turn up at 2:30 o'clock Saturday afternoon for a final workout.

The following will represent Regina: R. D. Thomson, J. V. Edwards, W. Dwyer, E. C. Parker, Jones, A. Jones, E. Diggins, M. Grant, W. Stanley, R. Turnbull, Reeves, A. J. Neale, D. Berry. Anybody unable to play please phone Doug Thomson as soon as possible. Owing to the weather conditions, practice was called off for Thursday but will all the above cricketers turn up at 2:30 o'clock Saturday afternoon for a final workout.

Chandler To Get
Discharge Soon

NEW YORK, Aug. 31.—(AP)—Pitcher Sargeon (Red) Chandler, who won 20 games and two world series titles for the New York Yankees in 1945, will be discharged from the army Sept. 15, it was announced Thursday at the Yankee Stadium. He entered service April 21, 1944.

It is presumed Chandler will rejoin the club as soon as possible after his discharge.

Close Finish
In Pigeon Derby

In one of the closest races in years, Norman Jackson's bird captured the Capital City Racing Pigeon Club annual Alberta Derby. In second place was Bill Goret's bird, finishing as close behind the winner that it almost required a mathematical genius to determine the winner.

For the third, fourth and fifth place, Tom Walker's three entries all clocked in at the same time. Finishing behind them in sixth and seventh place were Jim Palmer's two pigeons.

Appling Hoping
See Action Soon

ATLANTA, Aug. 31.—(AP)—Appling, 36-year-old shortstop for Chicago White Sox, left here Thursday to join the team after nearly two years army service. He was discharged Wednesday.

Appling, who left the American League in hitting in 1938 and 1943, said he hoped to get right into action.

St. Boniface Cops
Fastball Honors

WINNIPEG, Aug. 31.—(CP)—St. Boniface Athletics won the Manitoba senior women's fastball championship here tonight at Osborne Stadium by defeating St. Vital Tigresses 17-1 in the seventh game of best-of-seven series. More than 4,000 fans saw the contest. The Athletics will represent Manitoba in the western playoffs at Saskatoon.

CANADIAN
SPORTSHOTS

TORONTO, Aug. 31.—(CP)—Advance—The tall stories which baseball players delight in relating seldom fall flatter than the egg Frank (Snugg) Gower of Belleville, Ont., tried to pull 17 years ago.

As told by Geo. H. (Belleville) Ontario Intelligence) Carver, Gower was practicing with Belleville Nationals, 1928 Ontario senior baseball champions, when he noted as "Indian" of the "chip-see" type admiring his sharp legs to second base. The Indian asked how Gower developed the beeline whip.

"Just for fun," said Gower, "I said him that in my early days I used to place a large washbasin upside down on second base."

"When I could gain the gull in time," said Gower, "I said him that in my early days I used to place a large washbasin upside down on second base."

Britain's Busy Housewives Are Growing More Restive

By JAMES MCCOOK

LONDON PRESS MAIL WRITER

LONDON, Aug. 30. (CP Cable)—

British housewives, fearful

of the "new" rationing

make their lives more than

ever growing more restive as

their real of dreary conditions

in the United States where rationing

is being eased, and even

even now stockings are in

shortage.

Uncomplaining and energetic

throughout the war, they are now

protesting confinement of their

household, and when they

cannot understand, they are

feeling about the food situation

harder than when the war was

on and they are objecting strenu-

ously that rationing is growing in-

stead of abating.

SYMPATHIZE

And yet letter writers in the

newspapers, grumbling about

shortages, still admit their sym-

pathy for women anxious to

leave war-time factory jobs for

their homes, although such a

movement is one

big factor in easing the

supply of needed civilian goods.

Mrs. E. Morgan, a Londoner

and a prospective housewife,

summarizes her difficulties

thus: "After giving seven months' notice

she cannot get a hospital room

she cannot rent a house within

40 miles of London, she cannot

buy wool for the baby's clothes

she cannot get a doctor, cannot

get a cot, except by booking seven

months' ahead and then there is

no guarantee of delivery.

NOT ON EXHIBITION

Children complain that

promised new toys and

games are not on exhibition. Quores

CGIT Group Holds Tea

More than 60 old and young

campers of Falls CGIT called at

McGill church Thursday, to

pay tribute to 25 years of success-

ful camping at Lake Wabamun.

Mrs. K. Ford, president of the

CGIT board, presided.

Tea was served from 3 to 5 p.m.

and the table set with a lace cloth

and centred with a bowl of lac-

quart and tapers in traditional

colours of navy and white. Sharing

hones during the afternoon for the

first hour were Mrs. James Mc-

Arthur and Mrs. H. E. Thompson

and during the second hour, Mrs.

E. R. Munro and Mrs. Byron Mor-

ris.

SERVE TEA

Girls from the CGIT girls' coun-

cil who served during the alter-

noon were the Misses Mary Mil-

CANADA'S MEAT RATIONING IS PEACE LESSON FOR THE WORLD—UNITED STATES
Three Detroit girls, Joy Pickell, Betty Christensen and Margaret Duke, have come to Canada to induce Bossie away from her home in Windsor, Ont., but Bossie's having none of it. She's staying in Canada where meat rationing is soon to start as Canadians give up a large share of their meat that hungry millions in war-torn countries may have some.

Great steaks like these have drawn many Detroiters to Windsor, Ont., but soon they'll be just a memory as Canadians make their fine gesture of international friendship by adopting the ration once more to help others.

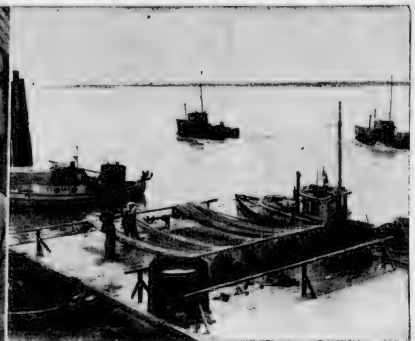

One mouthful in that serving of roast, says Shirley Ann Gibbs, but she's happy to make the sacrifice that others may eat, too.

Better grade fish are being selected here in a fresh fish market. During run of salmon to spawning grounds, B.C. fishermen and cannery men embark on a major industry.

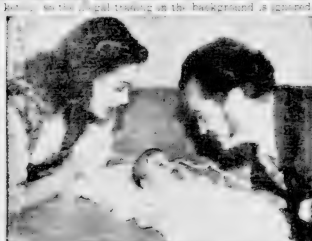

B.C. RIVERS TEEM WITH FOOD AS SOCKEYES GO ON ANNUAL RUN
Fresh Sockeye displayed here by Mrs. Gale Cook, who operates a cannery barge on the Fraser river, will soon be fine canned fish.

Small tugs ply the wide Fraser river to reap their daily harvest of sockeye salmon to help ease Canada's meat ration this fall. The salmon are now racing upstream to their annual spawning grounds in fresh water.

THIS YANK WENT TO MARKET—The intention of this picture is to show a little water trading at Berlin's black market. But there were those two blonde and handsome, seemed more attractive than black market, so the illegal trading on the background is ignored.

HEDY'S BABY SMILES FOR FIRST PHOTO—Diane Hedwig Loder, three-month-old daughter of Hedy Lamarr and John Loder, smiling sweetly as she poses for her first picture with her parents.

ENVOY TO U.S.—Bob Hamilton, above, the new British Consul General, is shown here in his new capacity. He is the first British Consul General to the United States since the late 1930s. He is the first British Consul General to the United States since the late 1930s.

FIRST FLYING FURNITURE VAN CRASHES ON FIRST FLIGHT—An attempt to make commercial air history met disaster when the "Flying Tiger" crashed and caught fire at a Detroit air field. Above photo shows the furniture blazing in the wreckage. The "Flying moving van" was loaded with furniture and was pioneering long-distance

moving by air with the flight scheduled from Detroit to Los Angeles. Complete household goods of five Detroit families were on board the plane. It was planned that the scheme would be international with Windsor as the Canadian end. The cargo plane originally built for the United States navy, crash-landed immediately after taking off.

RAIL TYCOON—Robert R. Young, above, chairman of the board of Chesapeake & Ohio Railway, today ranks as one of the top railroad magnates of the world. Official approval of his merger plan will combine the Nickel Plate, Pere Marquette and Wheeling & Lake Erie with the C. & O. in a billion-and-a-half dollar empire. The consolidation, under discussion for more than a decade, will be effected through exchange of stock.

Enslaves go up on pleasure craft in Nova Scotia ports. Now war's over, and here at Chester, Betty McVitty, summer visitor from New York, is doing happy chore.

THEY'RE GOING DOWN TO THE SEA IN PLEASURE SHIPS ONCE MORE AS HARBOR RESTRICTIONS ARE RELAXED IN NOVA SCOTIA
Inland sailing is over now with the lifting of harbor bans and enthusiastic sailors are getting their craft ready for the bigger thrills of the open sea.

Happy days are here again, sing the girls—Betty McVitty, Hilda Christmas and Marg. Hurlbut, as they set out with cushions, water jug and oars for a yachting trip which will take them far into the Atlantic.

Happy days are here again, sing the girls—Betty McVitty, Hilda Christmas and Marg. Hurlbut, as they set out with cushions, water jug and oars for a yachting trip which will take them far into the Atlantic.

It Says Here

by Bob Hope

One day in Nice, France, I was so tired from relaxing that I was afraid I would have to do the rest 10 hours from a chair lounge. My wallet also was a little tired. I visited Monte Carlo that afternoon. Started about 10 a.m. in a motorboat and cruised along the French coast until we came to the USS Grizzly—a destroyer that was playing hockey from Admiral Halsey's Third Fleet after chalking up a great record in the Pacific. We stopped and they invited us aboard for lunch which was topped by delicious green peas. The peas were very proud of their ice cream, which they make with a special mix, and the guys on the Grizzly told me they have it on an average of five times a week. One of the favorite sports on this destroyer is a game called "Try-and-find-the-wine."

After putting away a few gallons, I went back and had a long talk with William the cook. But it was to no use. He didn't think he could serve a tender to me. Later we put on an impromptu show on the after deck. Those sailors had been on the water constantly for four months, and when they got a look at each other, you should have heard the whistling. The Navy had complaints from as far away as Tokyo, Kat. We had a hard time getting away. They named some music in over the ship's public address system and Duke and Tyrodeman R. C. Cleland, of Philadelphia, went into a jitterbug routine and had the civilians we were in the Mediterranean version of Las Vegas, Nev. The town is off limits to all military personnel, but being civilians we were allowed to go. We had no trouble at all. It was a domed building with a large 100 flying at halfmast. It was next door to a haberdashery where they sold all sorts of goods. They used to have 125 gamblers there in operation, but when we were there they had only 12. Business was so bad that the gamblers were not allowed to pay off. They couldn't find the money to beat the bank for 30 years. The "regulars" all had big wheels. At first I thought they were figuring out their income tax. They all had that same "I gotta get even" look. But no far as I was concerned, it was just another look from the production, "Goodbye Mister Cops."

The Road Ahead

Continued from Page Eleven
from \$7,000,000,000 and the lives of more than 20,000 of our finest young men. It also cost many more of our young men their limbs, their eyesight, their hearing, their wealth, their minds, it cost thousands of families peace, joy, sweaters, relatives and friends, untold anguish and suffering.

It is impossible today to decide whether what we gained was worth the cost. Only posterity can answer that question. If we use our common sense, we can see that we have a better place to live in, to bring greater freedom, greater opportunity, greater happiness. But if we look at the cost, we find that the cost was not too great. But if we look at the cost, we find that the cost was not too great. But if we look at the cost, we find that the cost was not too great.

PROVIDE FUNDS

Leslie Hore-Belisha Joins Tory Party

LONDON, Aug. 31.—(CP)—Leslie Hore-Belisha, secretary for dealing the early months of the war and more recently minister of national insurance in the caretaker government of Winston Churchill, former party minister, announced yesterday he had joined the Conservative party.

"It is under the aegis of the Conservative party that I am joining," he said. "I am not a member of the Conservative party, but I am a member of the Conservative party."

In another speech of party affiliation, D. F. Sharman, president of the Associated Society of Locomotive Engineers and Firemen, said he was leaving the Labour party to become a Communist. He was one of the Labour party's staunch supporters.

Missing U.S. Lad Found in Alberta With Ranch Hand
FAIRFIELD, Mont., Aug. 31.—(AP)—A missing U.S. soldier, missing since Monday from his parents' ranch house, was found Wednesday night in Alberta, and grand larceny charges have been lodged against the man.
